CAREER SUMMARY

Motivated Frontend Developer passionate about building modern, responsive and high-performance web applications using React and JavaScript. Looking for a Frontend Developer Internship or Junior Frontend Developer position to contribute to real-world projects while continuously improving technical skills.

EXPERIENCE

Frontend Development — Self-driven Projects

FRESHER

PROJECTS

React Portfolio Website

React • Vite • Tailwind CSS • EmailJS

Fully responsive personal portfolio featuring smooth animations, reusable React components, project showcase, EmailJS contact form integration, downloadable resume, and optimized performance.

Drag & Drop Task Manager

GitHub: <https://github.com/ahmadali7403/drag-n-drop-j-query.git> | Live: <https://mobilesupporteddraganddrop.netlify.app/>
JavaScript • jQuery • Tailwind CSS

Interactive task management app with drag-and-drop functionality, task creation, editing, deletion, dynamic DOM manipulation, and a responsive interface for improved productivity.

Weather App

GitHub: <https://github.com/ahmadali7403/Weather-APP.git> | Live: <https://weatherapp7403.netlify.app/>
HTML • CSS • JavaScript • Weather API

Responsive weather application fetching real-time data via an external API — displays temperature, humidity, wind speed, and conditions for any searched city.

User Management CRUD Application

GitHub: <https://github.com/ahmadali7403/Crud-APP.git> | Live: <https://ajaxmethods.netlify.app/>
JavaScript • jQuery • AJAX • Tailwind CSS

CRUD application performing GET, POST, PUT/PATCH, and DELETE operations via REST APIs, with dynamic UI updates, asynchronous data handling, and responsive design.
